SUMMARY

A Computer Science (Internet Computing) student currently pursuing a degree, with a CGPA of 3.63. Possesses hands-on experience in developing functional and user-friendly web applications using Flutter, Firebase, and basic web technologies, with a strong interest in front-end development. Demonstrates strong attention to detail, adaptability, and a willingness to continuously learn and improve. Currently seeking an internship opportunity to gain practical industry experience and further develop skills as a Web Developer.

WORK EXPERIENCE

Service Crew, Mixue **June 2021 - October 2023**
Full-Time

- Provided efficient and friendly customer service in a fast-paced food and beverage environment.
- Collaborated with team members to ensure smooth daily operations during peak hours.

Retail Assistant, Zoe Arisah **October 2025 - March 2026**
Part-Time

- Created engaging content for social media platforms to promote products and increase brand awareness.
- Planned and executed simple marketing strategies to attract potential customers.

EDUCATION

Bachelor in Computer Science (Internet Computing) with Honors
University Sultan Zainal Abidin (Unisza), Besut Campus **October 2023 - Now**

- CGPA : 3.63
- Studied core areas including computer networking, web and mobile application development, database systems, and software engineering.
- Gained knowledge in network architecture, protocols, and basic network security concepts.

Malacca Matriculation Collage **October 2021 - May 2023**

- CGPA : 3.38
- Stream : Science Physical

Sijil Pelajaran Malaysia, SPM **2019 - 2021**

- RESULT: 1A 1A- 3B+ 1B 2D 1E

PROJECTS

Mobile App Developer, SmartBite - Personalized Nutrition System **October 2025 - Now**
Final Year Project (Ongoing)

- Built a Flutter-based mobile app integrated with Firebase for personalized nutrition and meal recommendation.
- Applied rule-based logic to generate meal suggestions based on user input and dietary preferences.

- Developed a web-based system using Laravel to monitor plant conditions and manage automated watering features.
- Simulated IoT simulation data for soil moisture and water level monitoring through a web dashboard.

- Developed an automatic lighting system using Arduino and light sensor to detect brightness levels.

ACTIVITIES

CERTIFICATE

LEADERSHIP & INVOLVEMENT

SKILLS

- Programming Languages: PHP, JavaScript, HTML, CSS
- Frameworks: Laravel 9, Flutter, CodeIgniter 4
- Development Tools: Android Studio, NetBeans, XAMPP, Arduino
- Design Tools: Canva, CapCut
- Database: MySQL
- Productivity Tools: Microsoft Word, PowerPoint
- Others: Basic networking, system support and troubleshooting

LANGUAGES

- Malay – Native proficiency
- English – Conversational (Written & Spoken)
